Moving Up or Changing Classes

When an athlete is ready to advance, they'll receive a **Level Up Ribbon** to recognize their hard work and celebrate their achievement. Their coach will let you know it's time to move into the next level.

Ready to level up? Simply contact our office by phone, text, email, or stop by the front desk, and we'll help you find the next class that best fits your athlete's schedule.

Please do not register for the next level through our website. Registering online will create a second enrollment and result in your athlete being billed for two classes. All level transfers are completed by our office to ensure your athlete is placed in the appropriate class and that your registration and billing remain accurate.

Need to change classes because of a schedule conflict?

No problem! Contact our office, and we'll be happy to help you find another class that works for your athlete.
